- Ltd "HAGBERG" is a merchant approved by the Health Inspectorate who can provide the certified disinfection of public premises.
- Surface processing is done by certified Ltd "HAGBERG" disinfectants who are equipped and instructed how to do quality and professional disinfection process.
- During the disinfection process only disinfectants are allowed to be on premises.
- Premises cannot be used 30 min after disinfection.
- Disinfection services are provided on all weekdays.
- While the disinfection process is being done, we recommend disabling the smoke detectors because fog from disinfection equipment could cause spontaneous functioning of detector. If CUSTOMER has not disabled the smoke detector, EXECUTOR continuous disinfection process even after smoke alarms are going off. **HAGBERG employees are not responsible for a smoke alarm going off** and do not disconnect/connect or cover the smoke alarm system.
- It is CUSTOMER'S responsibility to cover loose food or remove it from shelves (otherwise that area is not being processed) before disinfection process. If disinfectant has gotten on the loose food, it is recommended to rinse it off with clean water or to eliminate it.
